PLAYERS – Procedure for entering competition

First tee off is 2.30pm

The Tuesday Evening League has been success over a number of years and part of its success is due to players not “making up” matches but signing in at the pro shop and going out to play with who ever they are drawn. This process is to continue and members are asked to cooperate in maintaining this principal. The only exception to this is players who arrive after 3.30pm as the initial rush has diminished and finding a game is more difficult. To help players wanting to play later please complete your details on the chart below so other late players can contact you to arrange to meet.
